

Izaro APS:

Quick implementation in 5 steps

Implement **APS** in **5 steps**:

Create:

- **The environment** 
- **The Calendars** 
- **Resources** (Machines, moulds, workers, etc) 
- **Capacities** 

Implement **APS** in **5 steps**:

Complete the **Matrix of Changes**:

(How much time it takes preparing the machines
from a product to another)

	A	B	C
A	x	t	t
B	t	x	t
C	t	t	x

Implement **APS** in **5 steps**:

Import the **Production Orders**:

(What must be planned?)

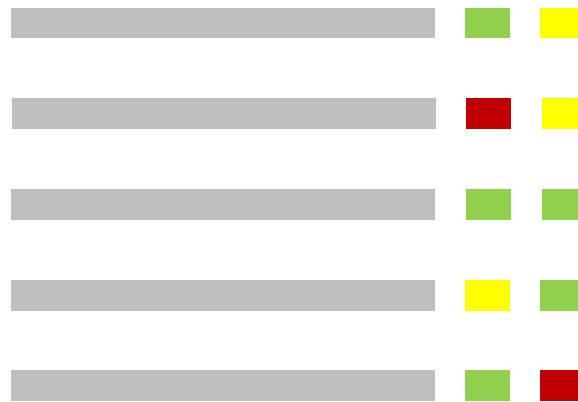

Implement **APS** in **5** steps:

Choose the **Algorithm** that
solves your **Company's** needs

Implement **APS** in **5 steps**:

Approve the planning with the **KPIs**

And **DONE!**
